Name --

Buying several

41p   22p   45p   63p

Write how much each set of toys costs.
1.

$$2 \times 41p = 82p$$

2.

3.

4.

5.

6.

How much change from £5 would you get for each set of toys?
Work out your answers on the back of this sheet.

I can pay for several of the same item and work out the change
